## Education

**B H Gardi College of Engineering and Technology(GTU) | 8.7 CGPA**

**Jan. 2020 – May 2024**

*Bachelor of Engineering in Information Technology*

*Rajkot, Gujrat*

## Experience

**Rain Infotech: Blockchain And NFT Development Company**

**May 2024 – Present**

*Full Stack Developer*

*Surat, Gujrat*

- Building modern full-stack web applications using Next.js for both frontend UI and backend API routes, and Node.js with Express for backend services based on project requirements.
- Developed secure and dynamic user/admin dashboards with JWT authentication, responsive design using CSS and Bootstrap, and role-based access control.
- Integrated MetaMask wallet connectivity for blockchain-based transactions and recorded successful transactions in the database for tracking.
- Experienced with MySQL, MongoDB, and third-party APIs like Replicate and Hugging Face to enhance applications with AI and external data.

**WebbyCrown Solutions**

**Jan 2024 – May 2024**

*React.js and Next.js Intern*

*Surat, Gujrat*

- Assisted in developing responsive web interfaces using React.js and Next.js, focusing on component-based design and performance optimization.
- Built and maintained dynamic frontend pages with API integration, routing, and reusable UI components.
- Collaborated with senior developers to implement pixel-perfect designs using CSS and Bootstrap
- Utilized Android Studio as a development environment in order to visualize the application in both iOS and Android.

## Technical Skills

**Languages:** JavaScript, TypeScript, Python, HTML/CSS

**Software Development:** NodeJs, Express, React, NextJs, MongoDB, MySql

**Ai Automation:** n8n

**Environments:** macOS , Linux, Windows

## Projects

**ShopNest – E-commerce Web Application**

**Next.js, TypeScript, MongoDB, Node.js, PayPal Integration**

- Developed a full-stack e-commerce website using Next.js with TypeScript for a responsive, scalable front-end.
- Designed RESTful APIs using Node.js and integrated MongoDB for secure product, user, and order data management.
- Integrated PayPal payment gateway for real-time, secure checkout and transaction processing.
- Implemented key features including Add to Cart, Like/Favorite products, and user authentication with session handling.

**Google Maps Business Intelligence Scraper**

**Next.js, n8n, Google Maps API, Google excle sheets**

- Built an automated web scraping tool to collect detailed business intelligence from Google Maps, including contact info, ratings, reviews, and geographic coordinates.
- Integrated Google Maps API to accurately fetch and filter business listings by location and category.
- Used n8n to orchestrate scraping workflows and handle automation tasks with minimal manual intervention.
- Exported and synced real-time scraped data directly to Google Sheets for easy access and analysis by business stakeholders.

**Real-Time Chat Application (In Progress)**

**Next.js, Node.js, Express, MongoDB, Socket.IO, Tailwind CSS**

- Built a secure 1-to-1 messaging app using Next.js, Node.js, MongoDB, and Socket.IO with real-time chat features.
- Includes JWT authentication, online/offline status, and a responsive chat UI built with Tailwind CSS.
- Currently integrating media sharing and planning full deployment with Vercel and Render.

## Achievements / Leadership

**3rd Place in Ai Automation hackathon by Rain Infotech**

**Jun 2025**

*Hero Project - Smart Mr Automation*

*Rain Infotech*

**4th Place in Waste to Best hackathon by BHGCET**

**April - 2023**

*Project- Garbage Collector*

*BHGCET*
